

PRODUCT SPECIFICATION - APPLICATION & USE

PRODUCT NAME: **CHEMAIDE ANTIFOAM**

GENERAL DESCRIPTION: A non toxic water dilutable poly dimethyl siloxane antifoam.

USE FOR WHICH PRODUCT IS INTENDED: To eliminate foam in a wide range of industrial situations where foaming is a problem. Can be used up to 100 degrees centigrade.

SPECIAL EQUIPMENT REQUIRED: None.

METHOD AND CONDITIONS OF USE.

1. Pre-dilute 1 part CHEMAIDE ANTIFOAM to 3 parts water (**DO NOT** store dilution).
2. Stir in or add to moving water.
3. Approximately 1 part undiluted ANTIFOAM to 1000 parts of water should normally prove satisfactory.

METHOD OF CONTROL: Add sufficient ANTIFOAM to control the foam level.
