

PRODUCT SPECIFICATION - APPLICATION & USE

PRODUCT NAME: **CLINICLEAN**

GENERAL DESCRIPTION: Colourless liquid with alcoholic odour.

USE FOR WHICH PRODUCT IS INTENDED: As a disinfectant lotion for application to the hands after washing and prior to handling foodstuffs.

SPECIAL EQUIPMENT REQUIRED: Can be used from a dispenser.

METHOD AND CONDITIONS OF USE:

1. Thoroughly wash and dry the hands in the normal manner.
2. Apply a small amount of CLINICLEAN to the palm of the hand.
3. Massage into the skin covering the hands and wrists, paying particular attention to areas around the nails and between the fingers.
4. It is not necessary to wipe the hands - CLINICLEAN dries in a few seconds.
5. Re-apply CLINICLEAN approximately every two hours or after each break from work.

METHOD OF CONTROL: N/A
