

PRODUCT SPECIFICATION - APPLICATION & USE

PRODUCT NAME: **ZYMASK**

GENERAL DESCRIPTION: Light brown liquid with a mild citrus odour.

USE FOR WHICH PRODUCT IS INTENDED: A natural biological odour digester for use on upholstery and carpets.

It is not a detergent or a personal hygiene product. It can also be used on other surfaces where odours may arise.

SPECIAL EQUIPMENT REQUIRED: Can be applied by spray, sponge or cloth.

METHOD AND CONDITIONS OF USE.

1. Remove excess soiling from the surface to be treated.
2. Apply ZYMASK by sponge, cloth or spray to the area to be treated ensuring that thorough wetting of the surface takes place.
3. Leave to act for a minimum period of 30 minutes. Stubborn and old established odours may require 48 hours with re-wetting with ZYMASK every 6 - 12 hours.
4. After treatment with ZYMASK the surface can be cleaned in the normal way for the particular surface treated.
5. Bleaches and disinfectants will inactivate ZYMASK and should only be used after treatment if it is thought necessary.

METHOD OF CONTROL. Use as directed until odour is eliminated.
