

Cyclaroma

Ceiling Mounted Air Freshener Unit

The Cyclaroma cyclonic ceiling air freshener unit is part of the Chemaide deodoriser's range of products. This unique patented system uses plug-in gel fragrances in combination with a battery operated cyclonic fan system, to deliver a range of natural fruit and flower aromas.

The unit is suitable for industrial, light commercial and institutional environments. Cyclorama's unique ceiling mounting makes this unit less vulnerable to damage through vandalism, yet fragrances are easy to change utilising the unique cartridge reach tool supplied.

Clean white polypropylene construction Cyclaroma electronically dispenses organic fresh patented fragrance cartridges at an effective level for 24 hours a day.

Battery operated Cyclaroma incorporates a gel/battery saving sensor switching off the unit during hours of darkness making this an effective and economic unit to run.

- Unique ceiling (anti vandal) mounting
- Incorporated Battery! Gel saving sensor for economy
- Safe and easy fragrance cartridge changing, using the unique, reach tool supplied with unit. (No ladders required)
- Refill cartridges in three fresh organic fragrances
