

Anti-Foam

Non Toxic Antifoam

Antifoam is part of our Water Treatment (Spray Booth) range of products. Within a Spray Booth environment, substances sprayed are prone to forming foam when mixed with water. Chemaide's Antifoam is a highly effective non toxic antifoam which is easily diluted with water.

This product is stable and effective at temperatures up to 100°C, making it suitable for use in hot or cold water systems. It is safe to use whilst descaling, and can be used in food contact areas. The non-toxicity of Antifoam also ensures its suitability for use in a fish breeding environment.

Antifoam is the simple cure for all foaming issues as it negates all unwanted foam. This product has a high dilution rate making it economical to use.

- o Economical and effective high dilution rate
- o Non-toxic making it safe to use
