

Emperor Bac

High Quality, Anti-bacterial, Liquid Hand Soap

The need for high quality liquid hand soap has never been higher than in today's ever demanding working environment. BAC is a member of our Skincare product range and is single-step fragrance-free liquid hand soap with anti-bacterial and skin-conditioning properties.

Manufactured from natural vegetable materials and neutral synthetic surfactants, BAC boasts a neutral pH, making it suitable for frequent use.

BAC cleans gently and thoroughly, giving a soft feel to the skin, and is non-tainting, making it the ideal product for use in the food industry.

Due to convenient packaging, BAC can be dispensed either through a wall mounted dispenser or our flip top 500ml packs, making it the perfect mobile companion.

BAC is an ideal product for washrooms in hospitals, schools, hotels and catering food preparation establishments, and may be used in conjunction with our product CLINICLEAN for extra protection against harmful bacteria.

- Single step cleaning, skin conditioning and disinfection.
- Effective against gram positive and gram negative bacteria.
- Neutral pH ensures skin compatibility.
- Skin conditioners, leave hands soft after frequent washing.
- Fragrance free makes BAC ideal for food preparation areas.
- Passes EN 1499 (1997).
