

Polisheen Stripper

Concentrated Stripper for Metalised and Non Metalised Emulsion Floor Polishes

To ensure a good durable finish for any floor surface to be polished, a good clean surface, free from remnants of old coatings must be achieved. Polisheen stripper is part of our floor care range and is designed to remove all metalised and non metalised floor polishes.

Fast acting Polisheen Stripper is economical as it can be diluted, and requires no hot water so saving on costly time and labour.

Polisheen Stripper's powerful blends of specialised chemicals provide the complete answer to polish removal.

Chemaide Polisheen Stripper, in conjunction with our high quality floor products, Floor Sealer, Polisheen and Powerclens, provide a complete floor care system.

- Removes both metalised and non metalised emulsion polishes, no need to stock more than one product.
- Fast acting which saves costly labour time.
- Economical, can be diluted with water, so saving money.
