

Powerclens

Mild But Effective Floor Cleaner

Powerclens is part of our Floor Care range of products. The polishing of floor surfaces is a costly and time consuming process. In maintaining the daily care and cleaning of such floor types, care should be taken not to damage the finished surface. Powerclens is a mild and gentle but effective cleaner which does not break down polished surfaces, but prolongs their long term finish.

The product cleanses thoroughly using special wetting agents which deeply penetrate to lift out ground in dirt and dust. Powerclens contains powerful soil suspension agents which quickly break up dust and grime and hold it in suspension. Continued use will, over a period of time aid buffing of a polished floor eventually enhancing appearance.

Containing no soap, acid or ammonia, this product is a mild but cogent cleaner able to clean any surface not harmed by the use of water. The fast safe chemical action scrubs the surface reducing the time spent cleaning, and rinsing is not required as Powerclens picks up water and dirt with the aid of a mop or sponge. It simply wipes away and leaves no soap film or grease scum.

Powerclens is labour saving and extremely economical as it is highly concentrated enabling just a small amount diluted with water to clean a large variety of surfaces. Its versatility makes this product ideal for use on: greasy floors, steel files, lockers, vinyl plastic flooring, rubber, linoleum, polished floors, terrazzo, marble, tiles, most hard surfaces.

- Powerful but mild cleaner which will not damage floor coverings
- A high dilution rate makes Powerclens a very economical product
- This one product is suitable for all types of hard floor surfaces
- Enhances polished floors through buffing helping a longer lasting shine
