

# RESTORE

## HIGH QUALITY SAFETY FLOOR CLEANER

The focus on health and safety has never been more important than it is today within the commercial, institutional and industrial sectors, and the installation of anti slip floor coverings are now common as one of the measures now in place. The added benefit of such coverings come with one down side, Safety flooring can be very difficult to clean unless a specialist cleaning solution is employed. **RESTORE** is part of our Floor Care range of products and is a high quality safety floor cleaner and restorer.

**RESTORE** removes ground in dirt, grease, food stains, inks, dyes and can be economically diluted with water to suit the degree of soiling. This high quality cleaner has special wetting agents that break surface tension which allow **RESTORE** to penetrate deep; making cleaning faster and easier, plus restoring the anti slip properties that can be lost through heavy soiling. Designed to leave no sticky residue, **RESTORE** can simply be applied by mop or used in conjunction with mechanical scrubbing machines leaving the surface clean and fully restored.

**RESTORE** is non-flammable and biodegradable. It successfully breaks down in water making it suitable for direct discharge into foul water drains.

- **RESTORE quickly cleans most varieties of Safety Floor coverings.**
- **Easy to apply, this fast acting cleaner leaves no sticky residue and fully restores Anti Slip properties.**
- **No special equipment needed, although RESTORE can be used in conjunction with mechanical scrubbing machines.**
- **The product is non-flammable and as a result special storage facilities are not required**
